

Eco-Arc II

Flip up Welding Helmet

The new Eco-Arc II is the latest development in flip up passive welding helmets. With a light weight Poly Propylene Shell, and outstanding facial protection, this helmet is suitable for all positional welding.

Available in three flip front options, the helmet also adopts the new Eco Head Gear, with 5 rake positions.

The helmet is supplied complete with outer protection lens, shade 11 mineral glass and the unique large internal protection lens.

Simplified Headgear

Features

Full Face Protection – Offering protection to the face, chin, throat, ears & head area, allowing for all position welding

Light Weight Poly Shell – With the shell weighing in at 205g this increases long-term comfort for the wearer, and reduces fatigue. The complete helmet weighs 484g, making it one of the lightest helmets on the market.

New Eco Head Gear – Made from a robust Nylon material, the head gear is very light & durable. The sweat band also adds added comfort to the wearer. There are 5 rake positions.

Unrivalled service and support

Our commitment and ability to deliver the expected service and support starts immediately after the order is confirmed. We endeavour to offer our customers an After Sales service, which is second to none. A strong and skilful service organisation is prepared to offer service and maintenance, calibration, validation and upgrading of equipment and software.

The service organisation will offer standardised solutions for the reconditioning or modification of existing products.

Spare and wear parts are manufactured according to ESAB's quality plan. Exchange Printed Circuit Board (PCB), exchange modules and components are available for all our products in order to reduce downtime to an absolute minimum. ESAB is continuously upgrading authorised service partners for local service support. Customers who have their own service and maintenance personnel will always be offered a service-training package as part of a total ESAB offering. However, product and process training for end-users will form an additional part of the ESAB offering. Always ask your ESAB sales representative or distributor for a complete ESAB solution.

Quality accessories for the quality welder

ESAB offers a wide range of accessories. The complete range, along with product information, is available at our local web-sites, look at www.esab.com or contact your local ESAB dealer.
